GO BEYOND TOURS:

Venture off the beaten track to explore fascinating destinations away from the tourist trail. You will discover the local culture in depth and see sights rarely witnessed by other travellers. These tours take you away from the comforts of home whilst rewarding you with experiences of a lifetime. You will be accompanied by our dedicated and professional National Escorts and local guides, whose unparalleled knowledge will turn your holiday into an unforgettable experience.

PHYSICAL LEVEL 4:

All our tours feature a physical rating to help you select the right holiday for you. To travel on any of our tours requires unaided mobility and the ability to stroll around the sights.

'Tibetan Railroad' is rated as a physical level 4 tour. You'll need to be fit and adventurous to participate on this tour as on some days you will be active for most of the day. The terrain and altitude may be more challenging and the activities more physically demanding. This itinerary reaches high altitude and visits several remote areas where hotel facilities are extremely basic, including onboard the overnight train to Lhasa and the overnight at Mt Everest Base Camp.

This tour has been carefully designed to minimise the effects of Altitude Sickness whilst in Tibet. Please be prepared for mild symptoms of Altitude Mountain Sickness (AMS) which include dizziness, fatigue, nausea, loss of appetite, breathlessness, headache and disturbed sleep. These usually develop over the first 36 hours at altitude and not immediately on arrival, however you may develop symptoms sooner whilst onboard the train to Lhasa reaching 5,072 metres in altitude. AMS symptoms are experienced by people of varying ages and levels of fitness, and usually the symptoms will subside after a day or so. If symptoms worsen, you should seek medical advice and descend in altitude immediately. The following precautions may help to prevent or lessen the effects of AMS:

- Since fluid loss usually accompanies the acclimatisation process, drink plenty of fluids to keep properly hydrated (minimum of 3 - 4 litres daily) and eat carbohydrate food to keep the body properly energised and hydrated
- Do not overexert and only partake in light activity immediate after your arrival
- Don't smoke, drink alcohol or take other depressants such as tranquilisers and sleeping pills, as these depress the respiratory drive and reduce oxygen intake
- Assume any sickness at high altitude is AMS until proven otherwise
- Never ascend to higher altitudes while showing symptoms of AMS
- You must report any symptoms of AMS immediately to your National Escort
- Speak to your doctor prior to departure to discuss medication

Of course, our National Escort and local guides will always endeavour to provide the highest level of service and assistance; however, they cannot be expected to cater for customers who are unfit to complete the itinerary.

JOINING YOUR TOUR:

The tour is 18 days in duration including return international flights or 16 days in duration based on 'Land Only'. Travellers booked on 'Land Only', the price includes your arrival/departure airport transfers if arriving/departing on the start and conclusion date of your tour, or when booking pre and post night accommodation with Wendy Wu Tours.

Changes can occur to the Chinese Government policies regarding the issue of these permits, sometimes at short notice. Wendy Wu Tours will keep all customers up to date with any changes regarding the issuing of Tibet permits that may affect our ability to operate this tour as per the original itinerary. In all cases, alternative arrangements are offered. There is no consular representation in Australia. Therefore, Wendy Wu Tours will forward information to our office in China to process and the permit will be provided to you locally.

INSURANCE:

We strongly recommend that you take out a policy as soon as you pay your deposit. Wendy Wu Tours cannot in any way be made liable for any additional cost incurred by the customer on any tour due to the customer not having adequate travel insurance. We also encourage all customers to take a copy of their travel insurance documents (especially relevant international contact numbers) with them while on tour. We advise that you check the inclusions and procedures for lodging claims prior to your departure. These documents should be stored separately from the original.

GROUP SIZE:

Most of our groups consist of 10 travellers or more and will be accompanied by both a National Escort and local guides. There will be no more than 18 travellers in each group although you may encounter other Wendy Wu our groups while you are travelling. All our departures are guaranteed to operate with a minimum of 10 travellers booked (unless cancelled due to factors beyond our control). However, at our discretion we may operate departures with a smaller group size as we try to operate advertised departures wherever it is viable to do so. For groups with fewer than 10 travellers, departures will operate with local guides only.

EATING IN CHINA:

Chinese cuisine is one of the most influential, diverse and flavoursome culinary styles in the world with a legacy stretching back thousands of years. Often you'll find that the local Chinese style is very different from what you're used to at home. We welcome people on our tours with a wide variety of tastes and as such try to present an array of food to suit everyone in the group. Our schedule of meals is designed so that you can experience the local dishes, their individual flavours as well as the different ways they are prepared and cooked throughout China.

Dishes served in restaurants on our group tours are varied. Some will be vegetable-based with meat mixed in, and a few will be meat-based. Traditionally, Chinese people cook with a lot of vegetables because meat used to be hard to come by. Dishes often come pre-seasoned with soy sauce or other sauces. Our restaurants are well aware of the western palate – there are plenty of non-spiced options. Most meals are served with plain rice on the side which is intended as an accompaniment to your meal. Unlike the western world, Chinese people do not normally pre-heat their plates and food can be presented at a variety of temperatures, which is a typical Chinese way of doing things.

When eating meals on group tours, you will be seated around a circular table with other tour members. Dishes will be served in the traditional 'family style' on a lazy susan; meaning that various dishes will be laid out on a spinning turntable in the centre of the tabletop. These dishes are intended to be shared amongst the group – there is always more than enough to feed everybody. 'Family style' means that there is a pair of serving chopsticks for each dish which are used specifically to serve the food (please ask your server if you require a fork or spoon) and everybody will help themselves to all the dishes on the lazy susan. You will have an individual bowl, chopsticks and cup for your own use. Please be courteous and consider your fellow diners; if your favourite dish is on the other side of the table, it will make its way round to you soon! We find our customers really enjoy this sociable style of eating.

Your National Escort will do their utmost to cater for any special requests such as gluten free or vegetarian meals, however, people on restricted diets should expect complications. Although most Asian countries are now quite developed, only quite recently have they started to widely accept Western guests. Western food requirements are quite far removed from Asian food requirements, and even medical reasons can be quite difficult to explain. While our ground partners will do everything they can to cater for a wide range of dietary requirements on tour, we ask kindly for your patience and understanding that they cannot always be delivered to the standard you will be used to at home. It is recommended that passengers with food intolerances bring snacks or additional food items with them, especially when travelling further from major cities as not all dietary requests will be met due to the limited foods available. Please read your travel guide which you will receive with your final documents for more information about eating in China. We recommend that when it comes to Chinese food, you stay open minded, try to be adventurous and always have a go with the chopsticks!

PLEASE INFORM US OF ANY ALLERGIES AND/OR SPECIAL DIETARY REQUIREMENTS AT TIME OF BOOKING.

ACCOMMODATION:

Your accommodation is selected for convenience of location, comfort or character, and can range from a business hotel in one city to a family run guesthouse in a smaller town. In more remote areas, accommodation may be of a lower standard and may not have all western amenities. Hotels are generally rated as local three to four-star standard, but please note that there is no international classification system for hotels and differences in facilities and quality do exist between Australia and China. Our group tour hotels have private western bathroom facilities, air conditioning, TV and telephone*. Due to environmental regulations, not all hotels in China provide toiletries in the rooms. Plumbing and electricity supplies can be erratic and quite often the power in hotel rooms is turned off while guests are out of the room. If you experience any difficulty, please speak to your National Escort/Local Guide. Rest assured that all hotels used by Wendy Wu Tours are regularly inspected by our staff and our partners to ensure that standards meet your needs.

*Please note: The accommodation in Rongbuk is extremely basic and the only facilities are simple public toilets. The rooms are multi-bed rooms shared with other guests. Rooms are not ensuite and there is no hot water or showers. You will have a wash basin and a thermos of boiled water in your room; towels are not provided by the property. Ensure you bring layers to sleep in and keep warm. The location of the hotel however is unsurpassed: if the weather is good, you will be able to see Everest when you wake up!

TRANSPORT:

High-Speed Trains: On this tour, you will take multiple high-speed “bullet” train journey’s. You will travel in second-class soft seats with air conditioning. For train journeys you must ensure that you pack liquids, aerosols and gels/lotions in your hand luggage as per recent regulations. Passengers are not allowed to carry any aerosols over 100ml. Passengers are also not allowed to carry flammable gases or liquids including styling gel, compressed air or insecticides; any explosives, magnetised material, knives (including Swiss Army knives), scissors or sharp items (medication is fine). Bag checks are conducted randomly and any of these items may be confiscated before boarding the train (in hand luggage or main luggage). The National Escort will inform you of specific details prior to boarding.

High-Speed Train Facilities: The second-class seats are in a 3 x 2 seating configuration. Facilities vary from train to train. Most carriages have a western style toilet. Most seats will have a foldable tray table and power socket for charging your electronic devices. There are dining carts on board if you wish to purchase your own additional food.

Overnight Train to Tibet: Your accommodation on board the overnight train is in an air-conditioned, shared 4-berth soft sleeper compartment. Each cabin has 2 upper and 2 lower berths. There are toilets onboard; a Western-style at one end of the carriage and an Asian-style at the other end. It is advisable to bring your own toilet paper. The beds and cabins are basic with clean linen provided. There are no showers onboard and we suggest wearing comfortable clothing onboard to sleep in. Although we try to keep all the group members together in the same compartment, you may find yourself sharing your compartment with locals; an excellent chance to share your experiences. There is a dining carriage with basic food/snacks, and your Guide will arrange time to purchase additional food prior to boarding.

The elevation at the departure point in Xining is 2,275 meters, and climbs to 5,072 meters while crossing the Tanggula Pass before arriving in Lhasa at an altitude of 3,700 meters. Each train is specially built with an air-pressure control system and two oxygen supply systems designed to assist passengers with the increase in altitude during the journey and minimise Altitude Mountain Sickness (AMS). Firstly, oxygen is pumped into the fully sealed carriages as the train gains altitude, keeping the oxygen content of the air you breathe around 23%; secondly, there are individual oxygen dispensing units with disposable tubes located in each sleeper compartment and throughout the train, which are free to use for anyone suffering altitude sickness. It is important to read the information on page 3 of this dossier regarding AMS, speak to your doctor prior to travel, and check your travel insurance coverage. During your tour, you must follow the advice of your National Escort and immediately report any symptoms so they may assist you along with the medical staff on the train.

A valid passport per passenger is required to purchase the train ticket to Tibet therefore we are unable to purchase additional tickets to book out the compartment for sole use. Whilst we endeavour to book Wendy Wu Tours passengers exclusively in each cabin, you may be required to share the cabin with non-Wendy Wu Tours passengers.

Coaches: Coaches with air conditioning are used on our group tours for city sightseeing, short excursions to the countryside and longer transfers where necessary. Roads in China have generally improved over recent years, but traffic and/or weather conditions may extend driving times. Road construction work usually covers an enormous section of road – not just 1-2 kilometres as you may be used to. For this reason, the timings listed in the itinerary are approximations only. There may be sections of road where the surface is bumpy but our drivers will do their utmost to lessen the impact.

Planes: Internal flight/s are based on economy class, with reputable airlines. Lithium Ion batteries, usually used in laptops, cell phones and digital cameras, must be carried in your hand luggage (not in your checked luggage). Portable chargers with a case that does not state the capacity or with a capacity of 160wh and more are not allowed on internal flights at all.

DEVELOPMENT IN CHINA:

Though parts of China match the west in modernity and technological advances, it is important to remember that China is still a developing country and as such, many aspects of tourism in China do not have the solid infrastructure and safety standards as seen here in the west.

Roads, especially highways, are of a different standard completely. Plumbing in all standards of hotels can be an issue (it is important to note that certain hotels in rural or remote areas may still encounter certain issues). Both Asian and Western-style toilets can be very basic, so we recommend you don't turn down the opportunity to go to a nice toilet when one is available; also, be prepared that not all public toilets, particularly outside of Lhasa, offer Western facilities.

PUBLIC HOLIDAYS:

If you are travelling within the below Chinese Public Holidays please note that celebrations last for several days and during these times some businesses will be closed and coach, air and train travel may be affected. Tourist attractions will be open, but may be crowded. Chinese New Year is from 9 – 16 February 2024 and 28 January – 4 February 2025. Golden Week public holidays fall annually between 29 April – 3 May and 30 September – 7 October.

SOUVENIRS:

We want to be able to give you an opportunity to buy souvenirs; so in each city, we will visit a workshop or factory which demonstrates a craft or product unique to that region with pieces available to buy. We understand that souvenir hunting is not for everyone so we aim to take you to places which hold local interest; for example, in Shanghai you will be able to see how silk is created all the way from the silk worm to beautiful garments; and in Xian we will take you to a workshop which creates replicas of the Terracotta Warriors, from tiny little warriors to seven foot behemoths! We trust you will enjoy these opportunities to learn about local arts and crafts and understand their historical and cultural importance.

TIPPING POLICY:

Tipping while on holiday is common in most parts of the world and China is no exception. However, it is not always clear who it is appropriate to tip and how much. Furthermore, travellers may not have the right amounts of cash available at the right time. In order to avoid any inconvenience, Wendy Wu Tours operates a tipping policy where a stated amount is given to your National Escort at the beginning of your tour and tips are disbursed to local guides and drivers throughout your tour. The amount is designed to be at a reasonable level for travellers while being fair to the local people and includes a gratuity for the National Escort.

We generally find that most customers appreciate the convenience of our tipping policy but we do recognize that it may not suit everyone. However, as this is a group tour we ask that everyone follows the same protocol to be fair to other group members and to ensure smooth operation of your tour.

OPTIONAL ACTIVITIES:

On occasion, your guide will offer optional activities locally if time permits. A list of optional activities and approximate costs will be provided with your final documents. These can be arranged by your guide and are paid for locally.

LUGGAGE:

All travellers are limited to two items of luggage each: a suitcase with a maximum weight of 20kg and one piece of hand luggage with a maximum weight of 5kg. It is essential that your luggage is lockable. In general, we recommend packing only as much as you can lift as you will need to carry your own luggage on and off trains. Please note that authorities will only allow bottles onto the aircraft if they have been checked in as main baggage. Bottles in hand luggage may be confiscated.

ITINERARY CHANGES:

It's our intention to adhere to the day-to-day itinerary as printed; however, the order of events or sightseeing may change as we look to improve our tours or as local conditions dictate. In these circumstances we'll make the best possible arrangements maintaining the integrity of your trip.

VACCINATIONS AND YOUR HEALTH:

We recommend that you contact either your GP or Travelvax (1300 360 164) for advice on vaccinations and travel health. Travelvax has a comprehensive website that you may also find useful www.travelvax.com.au

BEFORE YOU LEAVE:

We strongly recommend registering your travel plans with www.smartraveller.gov.au as in the event of an emergency, Australian Consular assistance will be more readily available. You can also access the Australian Government's travel advisory service for up to date information about your destination on the same website.

AFTER YOUR BOOKING:

Once you have booked with Wendy Wu Tours, you will receive an email with your confirmation invoice, along with a link to our website where you can find your visa information (if applicable) and other important information. Your final documentation pack will be sent to you approximately 2 weeks prior to departure.
